

UTC Plymouth Post-16 Centre

UTC Plymouth would like to provide additional space for its existing pupil numbers by constructing a Post-16 Centre on the site of the former Vocational Centre car park, within its current site. The Vocational Centre has been demolished as it was not habitable. There are no proposals to increase the number of pupils that we are able to enrol at the college. This consultation is only in relation to providing much needed additional new teaching space.

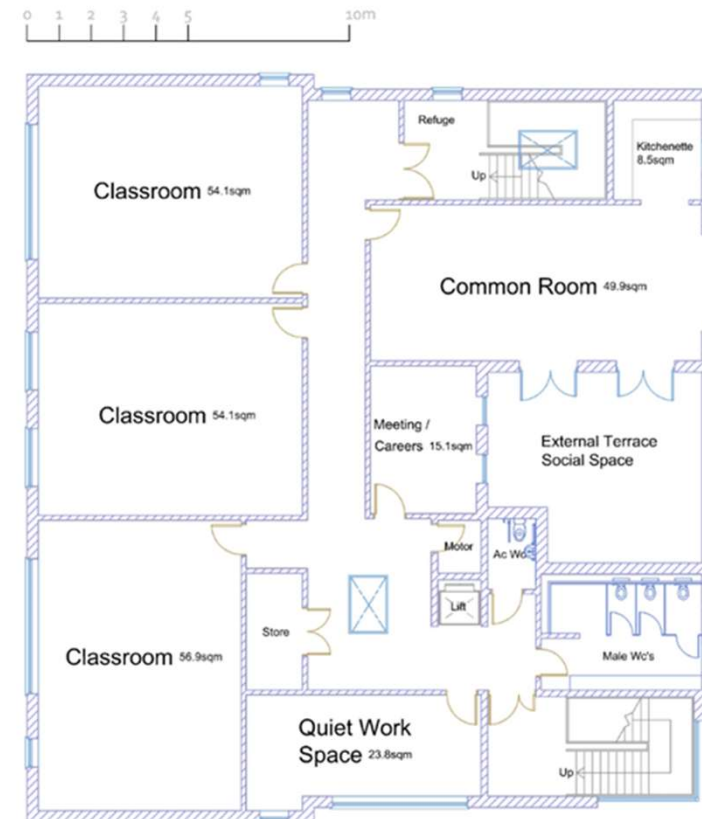

UTC Plymouth Post-16 Centre

The proposal would provide 6 classrooms, an engineering and digital technologies workshop, a common room with kitchenette, a careers office and study space.

Proposed Ground Floor Plan

Proposed First Floor Plan

UTC Plymouth Post-16 Centre

The new building would be a mix of timber cladding and render, to reflect the immediate context of its proposed location.

Proposed North Elevation

Proposed East Elevation

Proposed South Elevation

Proposed West Elevation

UTC Plymouth Post-16 Centre

The proposal is intended to apply for planning consent in the Spring of 2023. Subject to DfE capital funding bid and all necessary consents, occupation is intended from September 2024.

The building will be highly energy efficient, with solar panels, air source heating and a living green roof.
